Pain, 34 (1988) 326–328
Elsevier

Contents to Volume 34 (1988)

Number 1 — July 1988

CLINICAL SECTION

Research Reports

Assessment of small and large fiber function in long-term type 1 (insulin-dependent) diabetic patients with and without painful neuropathy (PAI 01237)
D. Ziegler, P. Mayer, K. Wiefels and F.A. Gries (F.R.G.) 1

Tender points in fibromyalgia (PAI 01226)
E. Tunks, J. Crook, G. Norman and S. Kalaher (Canada) 11

Difference in analgesia following epidural blockade in patients with postoperative or chronic low back pain (PAI 01241)
P.P. Raj, D. Knarr, E. Vigdorth, R.V. Gregg, D.D. Denson and H.H. Edström (U.S.A.) 21

Neuroendocrine evaluation of central opiate activity in primary headache disorders (PAI 01219)
F. Facchinetti, E. Martignoni, V. Gallai, G. Micieli, F. Petraglia, G. Nappi and A.R. Genazzani (Italy) 29

Cluster headache pain vs. other vascular headache pain: differences revealed with two approaches to the McGill Pain Questionnaire (PAI 01243)
A. Jerome, K.A. Holroyd, A.G. Theofanous, J.D. Pingel, A.E. Lake and J.R. Saper (U.S.A.) 35

Psychological functioning of children who have recurrent migraine (PAI 01233)
F. Andrasik, E. Kabela, S. Quinn, V. Attanasio, E.B. Blanchard and E.L. Rosenblum (U.S.A.) 43

Differential utility of medical procedures in the assessment of chronic pain patients (PAI 01234)
T.E. Rudy, D.C. Turk and S.F. Brena (U.S.A.) 53

Clinical Note

Delayed contralateral sympathetic blockade following chemical sympathectomy — a case history (PAI 01259)
G. Purcell-Jones and D.M. Justins (U.K.) 61

BASIC SECTION

Research Reports

Dorsal raphe stimulation modulates nociceptive responses in thalamic parafascicular neurons via an ascending pathway: further studies on ascending pain modulation pathways (PAI 01244)
J.-T. Qiao and N. Dafny (U.S.A.) 65

Inhibition of nociceptive responses of lumbar dorsal horn neurones by remote noxious afferent stimulation in the cat (PAI 01248)
C.R. Morton, H.-J. Du, H.-M. Xiao, B. Maisch and M. Zimmermann (F.R.G.) 75

Opioid–monoamine interactions in spinal antinociception: evidence for serotonin but not norepinephrine reciprocity (PAI 01235)
D.E. Kellstein, R.T. Malseed and F.J. Goldstein (U.S.A.) 85

Sleep fragmentation in the arthritic rat (PAI 01242)
C.A. Landis, C.R. Robinson and J.D. Levine (U.S.A.) 93

LETTERS TO THE EDITOR

Pain following spinal cord injury: results from a postal survey (PAI 01255)
M. Rose, J.E. Robinson, P. Ells and J.D. Cole (U.K.) 101

Pain measurement in reflex sympathetic dystrophy syndrome, *Pain*, 32 (1988) 27–34 (PAI 01265)
A. Lambin (Belgium) 103

Pain measurement in reflex sympathetic dystrophy syndrome, *Pain*, 32 (1988) 27–34. A reply to Dr. Lambin (PAI 01266)
G. Davidoff (U.S.A.) 104

Book Reviews 105

Number 2 — August 1988

CLINICAL SECTION

Research Reports

Central dysesthesia syndrome in spinal cord injury patients (PAI 01263)
A. Berić, M.R. Dimitrijević and U. Lindblom (U.S.A., Sweden) 109

Morphine and ibuprofen compared using the cold pressor test (PAI 01258)
S.F. Jones, H.J. McQuay, R.A. Moore and C.W. Hand (U.K.) 117

A double-blind comparison between epidural morphine and epidural clonidine in patients with chronic non-cancer pain (PAI 01254)
C. Glynn, D. Dawson and R. Sanders (U.K.) 123

Post-herpetic neuralgia: post-mortem analysis of a case (PAI 01253)
C.P.N. Watson, C. Morshead, D. Van der Kooy, J. Deck and R.J. Evans (Canada) 129

Candidate risk factors for temporomandibular pain and dysfunction syndrome: psychosocial, health behavior, physical illness and injury (PAI 01262)
J.J. Marbach, M.C. Lennon and B.P. Dohrenwend (U.S.A.) 139

Comparison of lumbar paravertebral EMG patterns in chronic low back pain patients and non-patient controls (PAI 01246)
D.K. Ahern, M.J. Follick, J.R. Council, N. Laser-Wolston and H. Litchman (U.S.A.) 153

The premenstrual syndrome: psychophysiologic concomitants of perceived stress and low back pain (PAI 01245)
B. Dickson-Parnell and A. Zeichner (U.S.A.) 161

Coping with the coping concept: a brief comment (PAI 01250)
E. Tunks and A. Bellissimo (Canada) 171

Coping with persistent pain: a comparison of persistent pain sufferers in a specialty pain clinic and in a family practice clinic (PAI 01261)
J. Crook, E. Tunks, S. Kalaher and J. Roberts (Canada) 175

Differing correlations between pain measures in syndromes with or without explicable organic pathology (PAI 01247)
F. Perry, P.H. Heller and J.D. Levine (U.S.A.) 185

Presentation of a new MMPI scale to predict outcome after first lumbar diskectomy (PAI 01256)
L.V. Sørensen and O. Mors (Denmark) 191

BASIC SECTION

Research Reports

Ethnographic methodologic assessment of pain perceptions by verbal description (PAI 01257)
R.A. Moore and S.F. Dworkin (Denmark, U.S.A.) 195

Behavioural and thalamic nociceptive responses in rats following noxious ischaemia of the tail (PAI 01264)
L. Gelgor, D.M. Ford and D. Mitchell (South Africa) 205

LETTER TO THE EDITOR

Back pain and disability (PAI 01277)
H. Merskey (Canada) 213

Book Reviews 214

I.A.S.P. Newsletter, August 1988

Number 3 — September 1988

CLINICAL SECTION

Review Articles

The disability determination dilemma: toward a multiaxial solution (PAI 01287)
D.C. Turk, T.E. Rudy and R.L. Stieg (U.S.A.) 217

Meta-analysis of non-medical treatments for chronic pain (PAI 01284)
M.D. Malone and M.J. Strube (U.S.A.) 231

Research Reports

Effects of heterotopic conditioning stimuli on first and second pain: a psychophysical evaluation in humans (PAI 01269)
D.D. Price and J.G. McHaffie (U.S.A.) 245

The effect of buprenorphine on the analgesic and respiratory depressant effects of pethidine: a preliminary study (PAI 01270)
A.E. Vedig, J.M. Gibbs, A.J. Rutten and A.H. Ilsley (Australia) 253

Cutaneous pain and detection thresholds to short CO_2 laser pulses in humans: evidence on afferent mechanisms and the influence of varying stimulus conditions (PAI 01276)
A. Pertovaara, T.J. Morrow and K.L. Casey (U.S.A.) 261

Naloxone does not alter the perception of pain induced by electrical and thermal stimulation of the skin in healthy humans (PAI 01268)
G. Stacher, T.-A. Abatzi, F. Schulte, C. Schneider, G. Stacher-Janotta, G. Gaupmann, G. Mittelbach and H. Steinringer (Austria, F.R.G.) 271

Sensitivity to cold pressor pain in dysmenorrheic and non-dysmenorrheic women as a function of menstrual cycle phase (PAI 01260)
E.G. Hapidou and D. De Catanzaro (Canada) 277

Clinical Note

The percutaneous anterior approach to the celiac plexus using CT guidance (PAI 01278)
A. Montero Matamala, F. Vidal Lopez and L. Inaraja Martinez (Spain) 285

BASIC SECTION

Research Reports

I. Spinal recordings suggest that wide-dynamic-range neurons mediate sympathetically maintained pain (PAI 01271)
W.J. Roberts and M.E. Foglesong (U.S.A.) 289

II. Identification of afferents contributing to sympathetically evoked activity in wide-dynamic-range neurons (PAI 01272)
W.J. Roberts and M.E. Foglesong (U.S.A.) 305

LETTERS TO THE EDITOR

Report of Higa et al. (*Pain*, 32 (1988) 147–157) (PAI 01273)
H. Yanagida and K. Suwa (Japan) 315

Reply to the letter of Drs. Yanagida and Suwa (PAI 01274)
K. Higa, K. Dan, H. Manabe and B. Noda (Japan) 316

Taxonomy of pain of the IASP (PAI 01275)
A.C.M. Vervest and G.H. Schimmel (The Netherlands) 318

Corrigenda 322
